WSG REMINDERS: SPRING 2022

April May June

PureLine Plumbing began outside sewer line inspections in mid-March. This is a preventive maintenance measure. Storm water drainage areas throughout Weathersfield will also be inspected to ensure proper drainage.

From spring through fall, Ruppert Landscaping will be in Weathersfield performing routine maintenance each Wednesday, weather permitting. If the crew cannot come on any Wednesday, they will try to come the next day. Please set out paper leaf bags and bundled branches the night before or day of routine maintenance. Lawn over-seeding will be carried out this spring, currently scheduled for mid-April.

Power washing of Weathersfield homes and garages is scheduled for mid-June.

Special Safety Notice

A survey of the Weathersfield neighborhood found approximately thirty potential trip hazards on sidewalks throughout our community, as a result of shifting of sidewalk blocks. Two or three are serious enough to require immediate attention and will be so addressed. The WSG plans to have the less serious hazards clearly marked with warning stripes and then deal with them in a phased-maintenance plan. Please familiarize yourself with these warning stripes to eliminate any falls and injuries due to uneven sidewalks. Rest assured WSG will address them in a timely fashion.

Remember the Wednesday evening “meet-ups” at the Grove have begun. Come out and enjoy conversation with neighbors.
